

AY25 PROGRAM ASSESSMENT REPORT

v2026.1

Tracking Data

CIM code (e.g., ME-CM)	MAS-ACHM-1
Program Name	MS-Analytical Chemistry
Assessment Year	2024-25
Program Assessment Coordinator	Diep Nguyen
Year of Current Assessment Plan	2024-25
No Assessment This Year per Plan	☐
LO(s) Assessed	1. Explanation of Key Concepts 2. Delivering a technical presentation
Presented at program authority meeting date: <i>Please attach minutes</i>	Department Meeting on Oct 8, 2025

Methodology

For each LO and artifact assessed, please describe methodology used, and attach (as supplemental files during report submission) or insert here the rubric used. At minimum this should contain:

- a description of how the artifact is concordant with the LO
- a rubric describing the method used to place individual student in at least 3 assessment categories; {**D** Does not meet expectations, **M** Meets expectations **M**, **P** Proficient}

Learning Objective (technical)	Level of Performance		
	Does not meet expectation (D)	Meet Expectation (M)	Proficient (P)
Explanation of Key Concepts	Student's explanation of key concepts is either inaccurate or incomplete	Student's explanation of key concepts is both accurate and complete	Student's explanation of key concepts is accurate, complete and demonstrates understanding beyond the confines of the project.
Delivering a technical presentation	Student fails to explain the experimental results to the audience	Student adequately explains the experimental results to the audience in the allotted time.	Student shows originality and delivers an engaging talk to the audience.

Results

Artifact samples

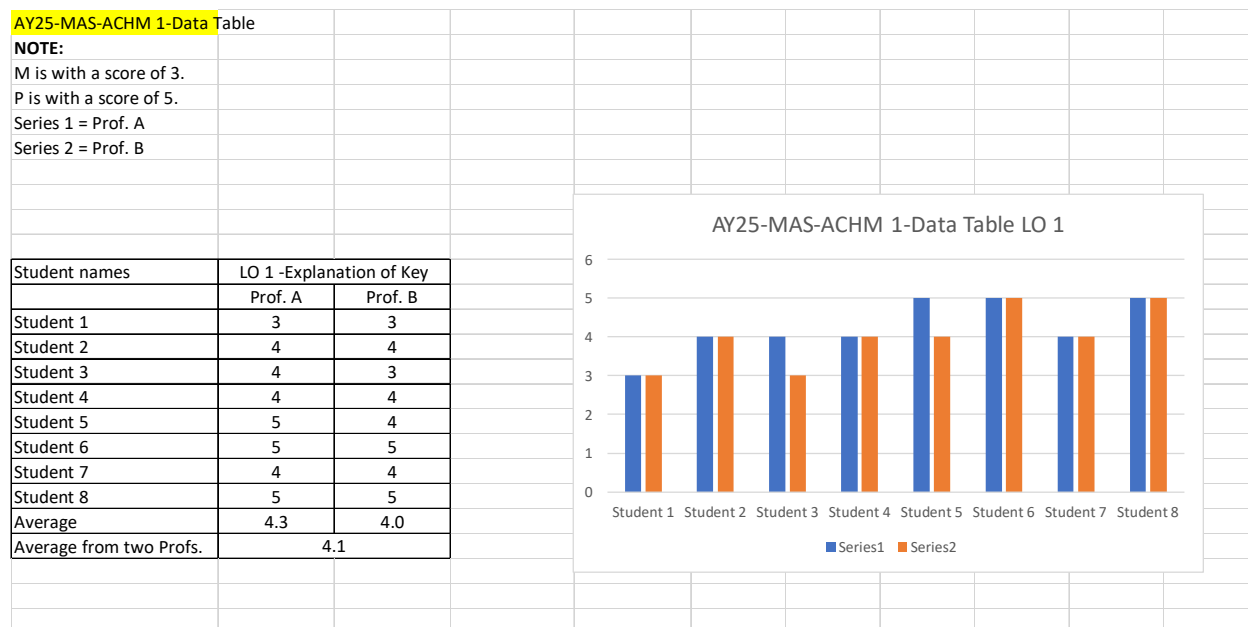

Attach artifact samples. You can paste them in here if feasible, attach them to the end of this report, or submit them as supplemental files when submitting your reports. For data sets with ≤ 10 students, provide 1 in each category, D,M,P, (unless the category is empty, if so state that). For programs with ≤ 20 , provide 2. For other programs provide 3. Please redact any personally identifiable information, PII (which includes names and A#s). Please convert your documents to PDFs.

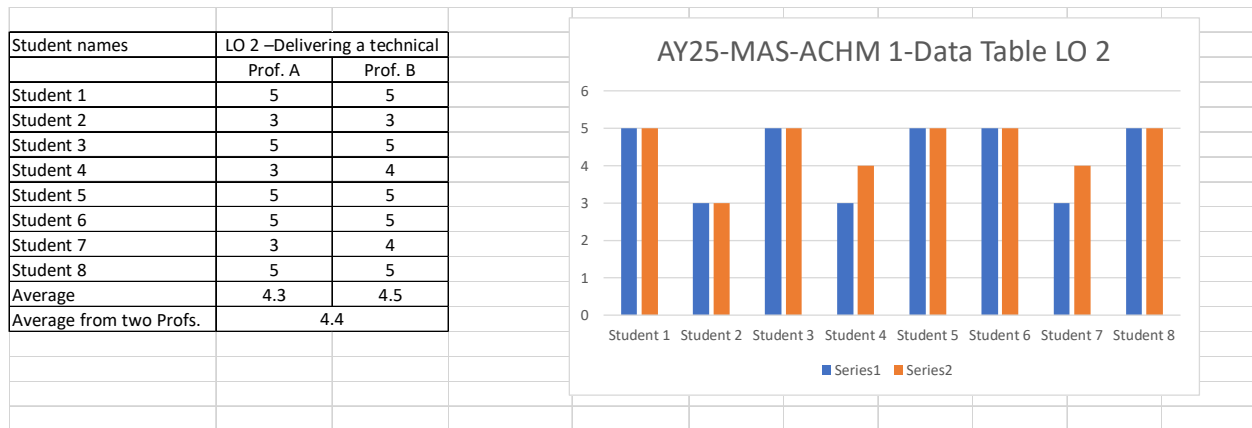

We have provided one M and one P artifact as a separate file attached. There were no students in D, so no D artifact is provided,

Please use the following naming convention for your artifact files: **AY25_CIM-CODE_Name of Artifact.pdf**.

Data table

For each LO and provide a table pasted in from the [provided template](#) placing each student into the assessment categories (minimally {D, M, P}). Please redact any personally identifiable information, PII (including names or A#s) from this report. Provide a summary graph from the template presenting this distribution. You should also present additional analysis as deemed appropriate by the results seen, and the needs of the program.

Conclusion:

From the data, all students met or exceeded expectations.

Description of findings

Summarize the discussion that occurred within the program authority when this was presented. Provide a short narrative interpreting the findings. Are there any areas of concern?

The department has approved the report's findings. There were no questions or suggestions.

Continuous Improvement, CI, plans

The purpose of assessment is to improve the quality of our educational programs. The most important part of the assessment cycle is how we use the data to improve our programs. Examine the data provided above describing student achievement, consider the root cause of any deficits, and if areas for possible improvement emerge, describe plans to achieve this improvement.

A potential area for improvement is the development of students' presentation skills.

Prior CI plan impact

Also, please refer to the previous assessment report for the LOs assessed. Were any CI plans recommended? Were they implemented? Did the plans work (were improvements seen in this cycle)?

☒ No previous CI plans available

This cycle's CI plan

Describe any CI plans developed from this cycle's data, with

- Specific curricular or instructional changes in response to this assessment data,
- A timeline for implementation,
- As well a description of who will participate in and manage these plans

☒ The program director will convey this suggested improvement to the instructor of the communication course (SCI 522). It is anticipated that the instructor will integrate presentation topics into the course curriculum by the next academic year.
