Description of findings

The Clinical Psychology program analyzes data every three academic years to ensure sufficient sample size. An evaluation and full discussion of the results is planned for the Assessment Report due Fall 2027. However, the clinical faculty briefly reviewed the data and saw no issues.

Continuous Improvement, CI, plans

The purpose of assessment is to improve the quality of our educational programs. The most important part of the assessment cycle is how we use the data to improve our programs. Examine the data provided above describing student achievement, consider the root cause of any deficits, and if areas for possible improvement emerge, describe plans to achieve this improvement.

Prior CI plan impact

Also, please refer to the previous assessment report for the LOs assessed. Were any CI plans recommended? Were they implemented? Did the plans work (were improvements seen in this cycle)?

☒ no previous CI plans available

This cycle's CI plan

☒ After consideration and presentation to the program authority, no CI plans are recommended.
