Program Analysis

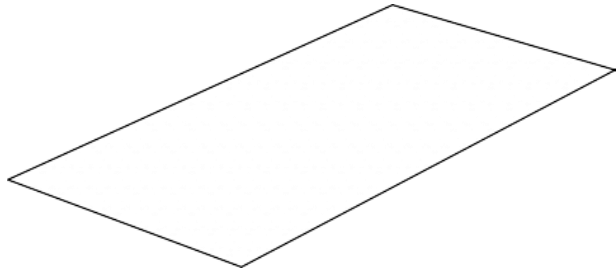

Regenstein Library

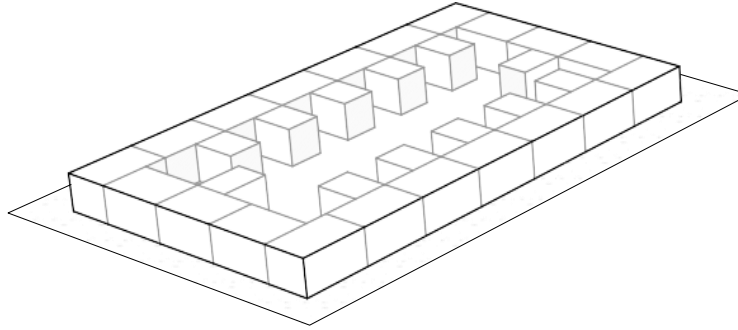

Concept

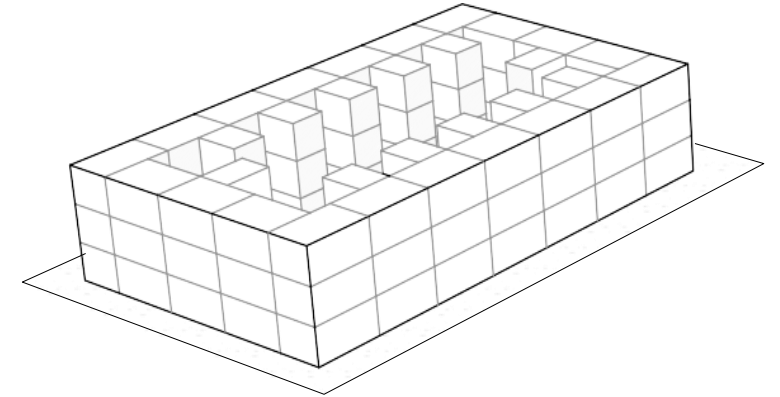

Conceptual Framework

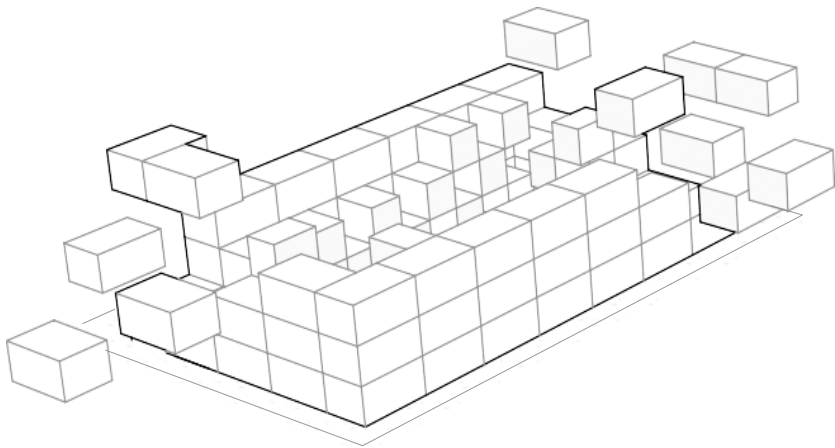

01. Forging a connection through the site with the Regenstein library.

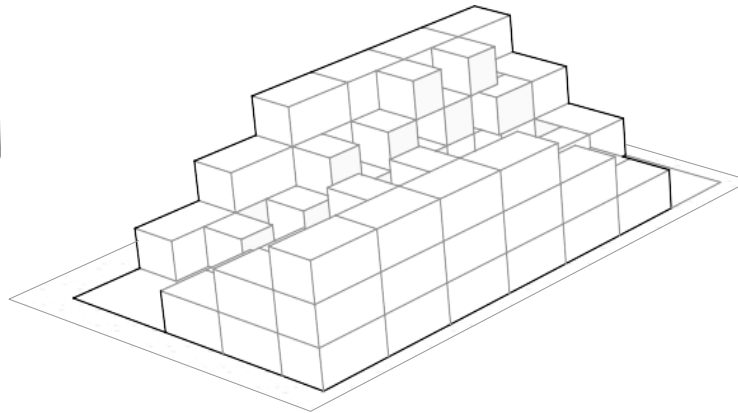

02. The linear mass elevated maximizes the openness of the building and its connection to the ground.

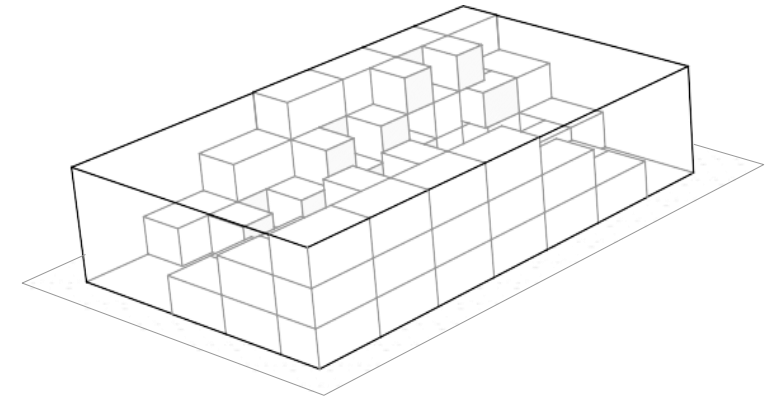

03. Introducing each floor with a new floor level to maintain the context.

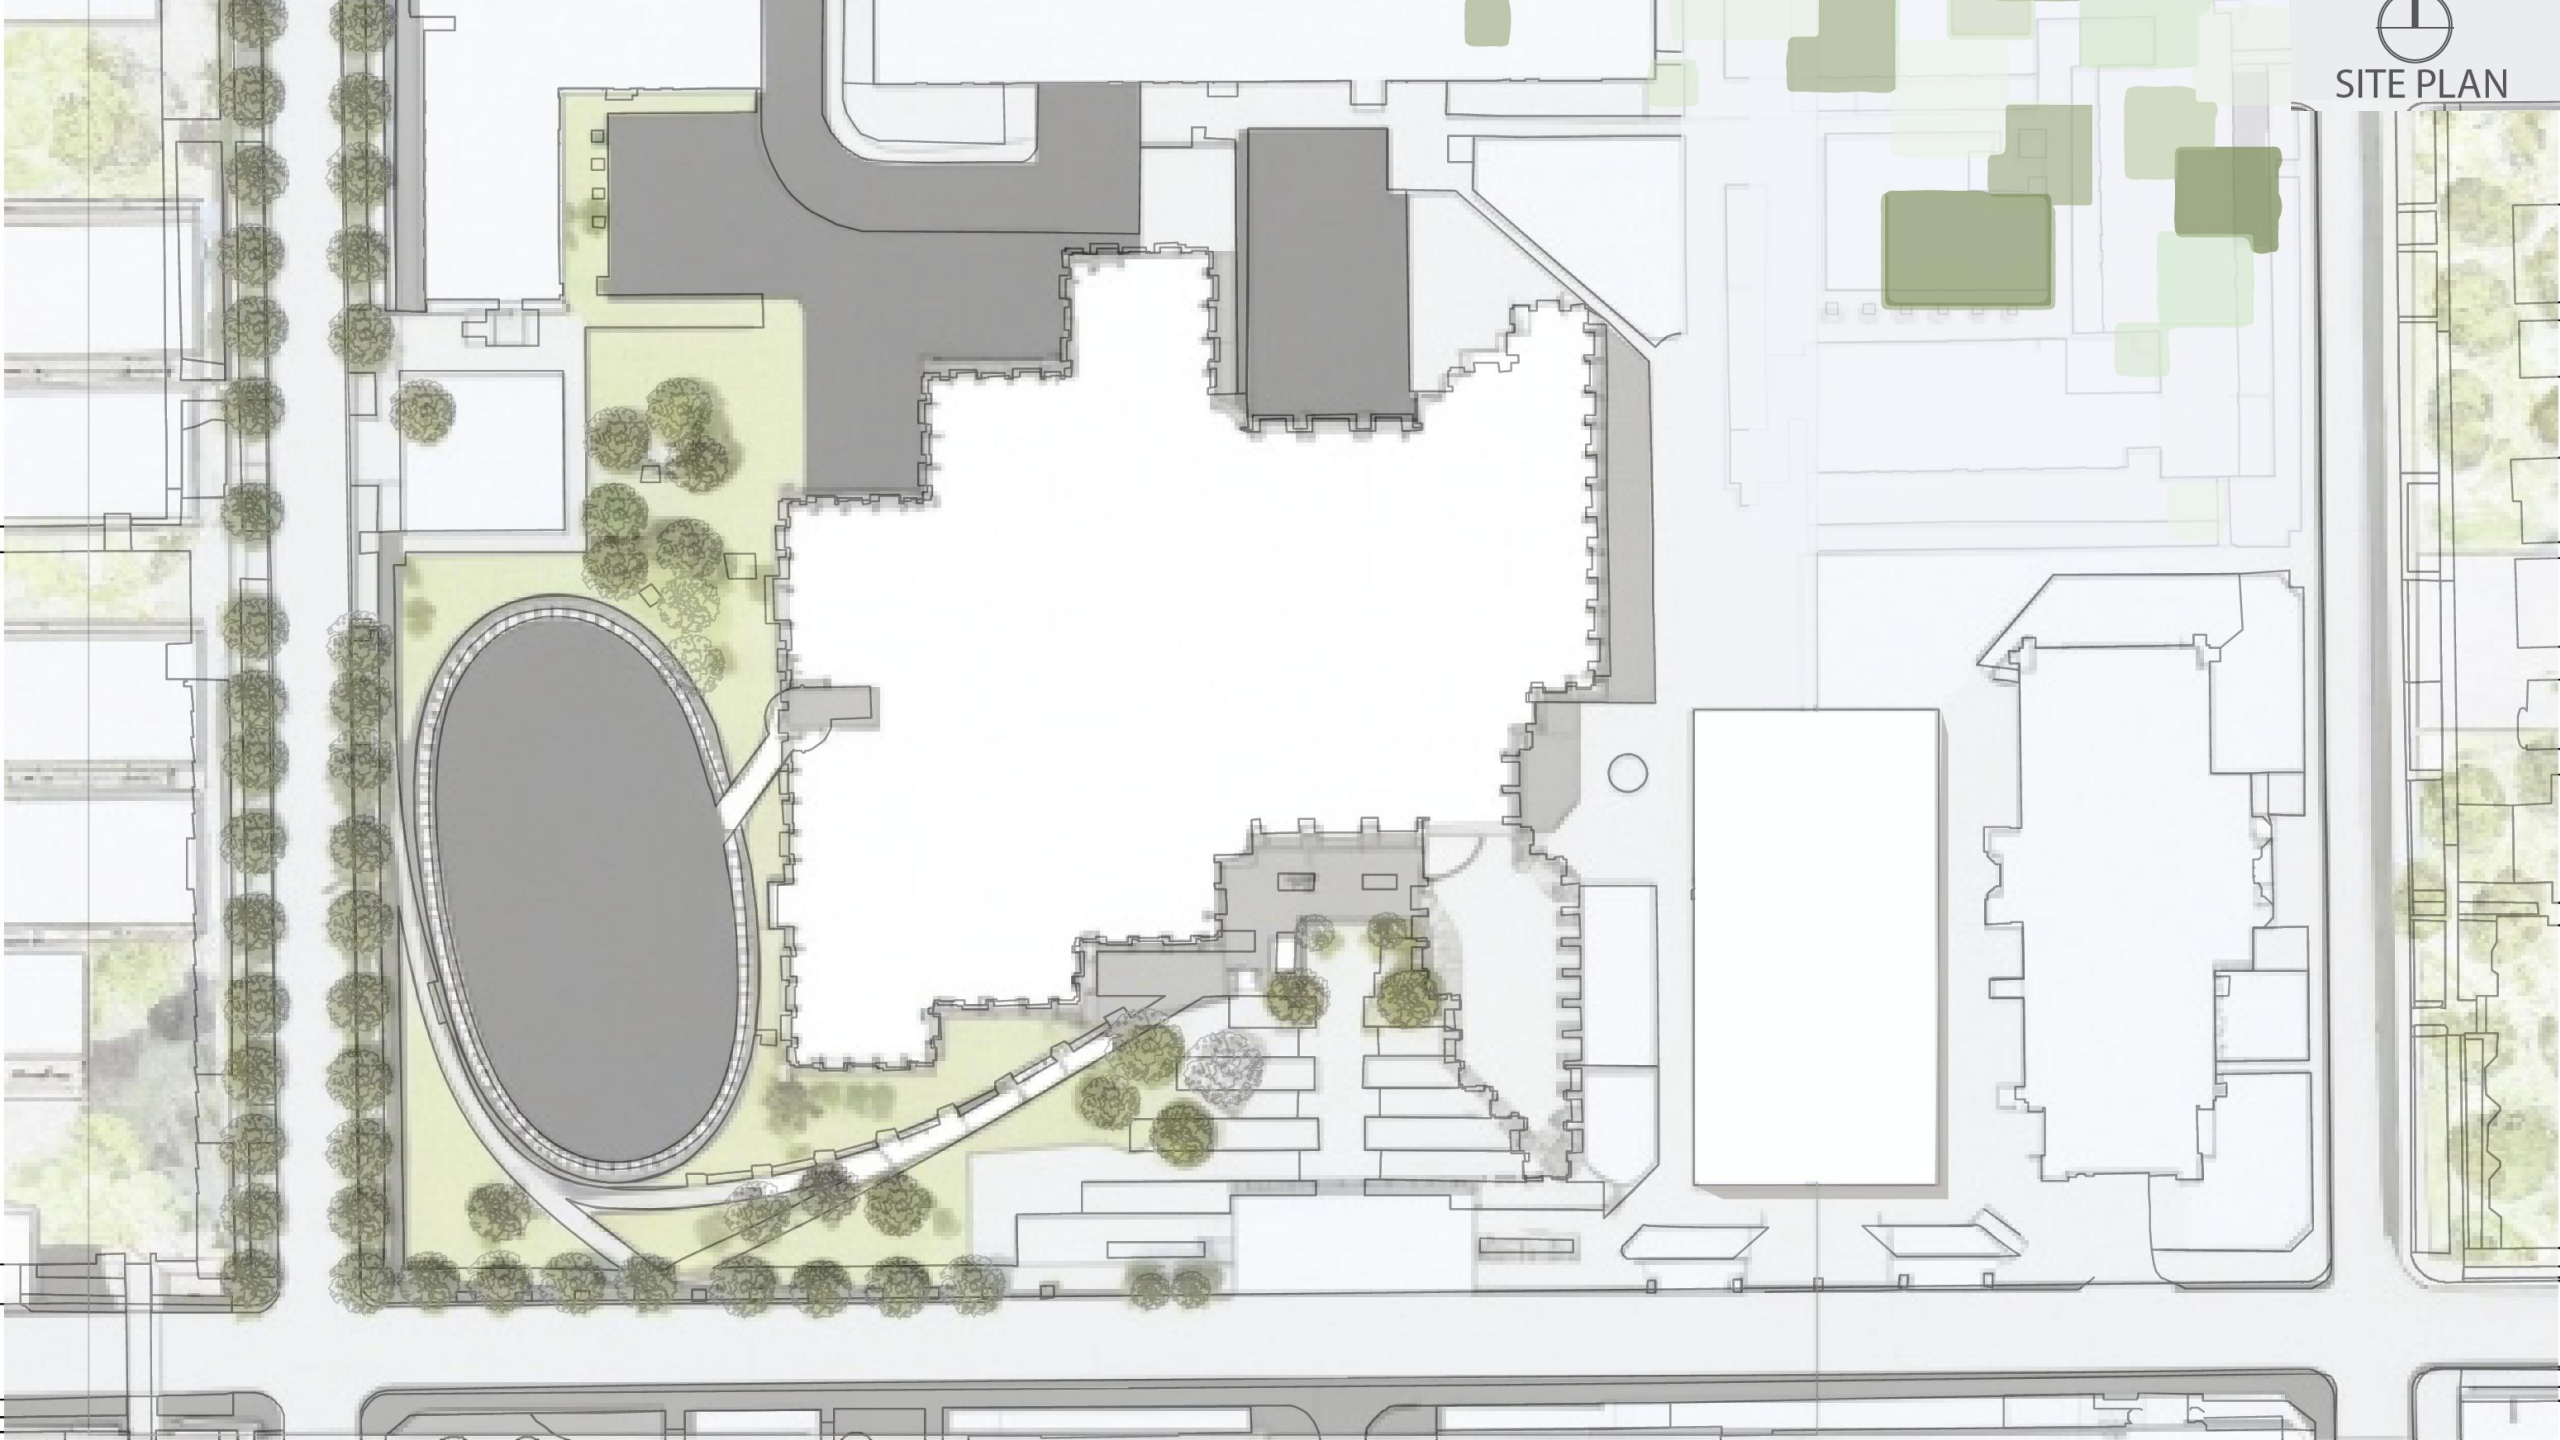

04. Staggering the masses to induce shade and open terrace onto these new floors.

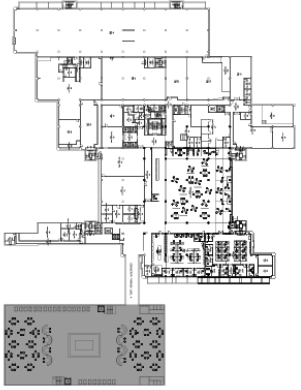

05. Creating stepped program into the linear mass to have open and closed huddle areas.

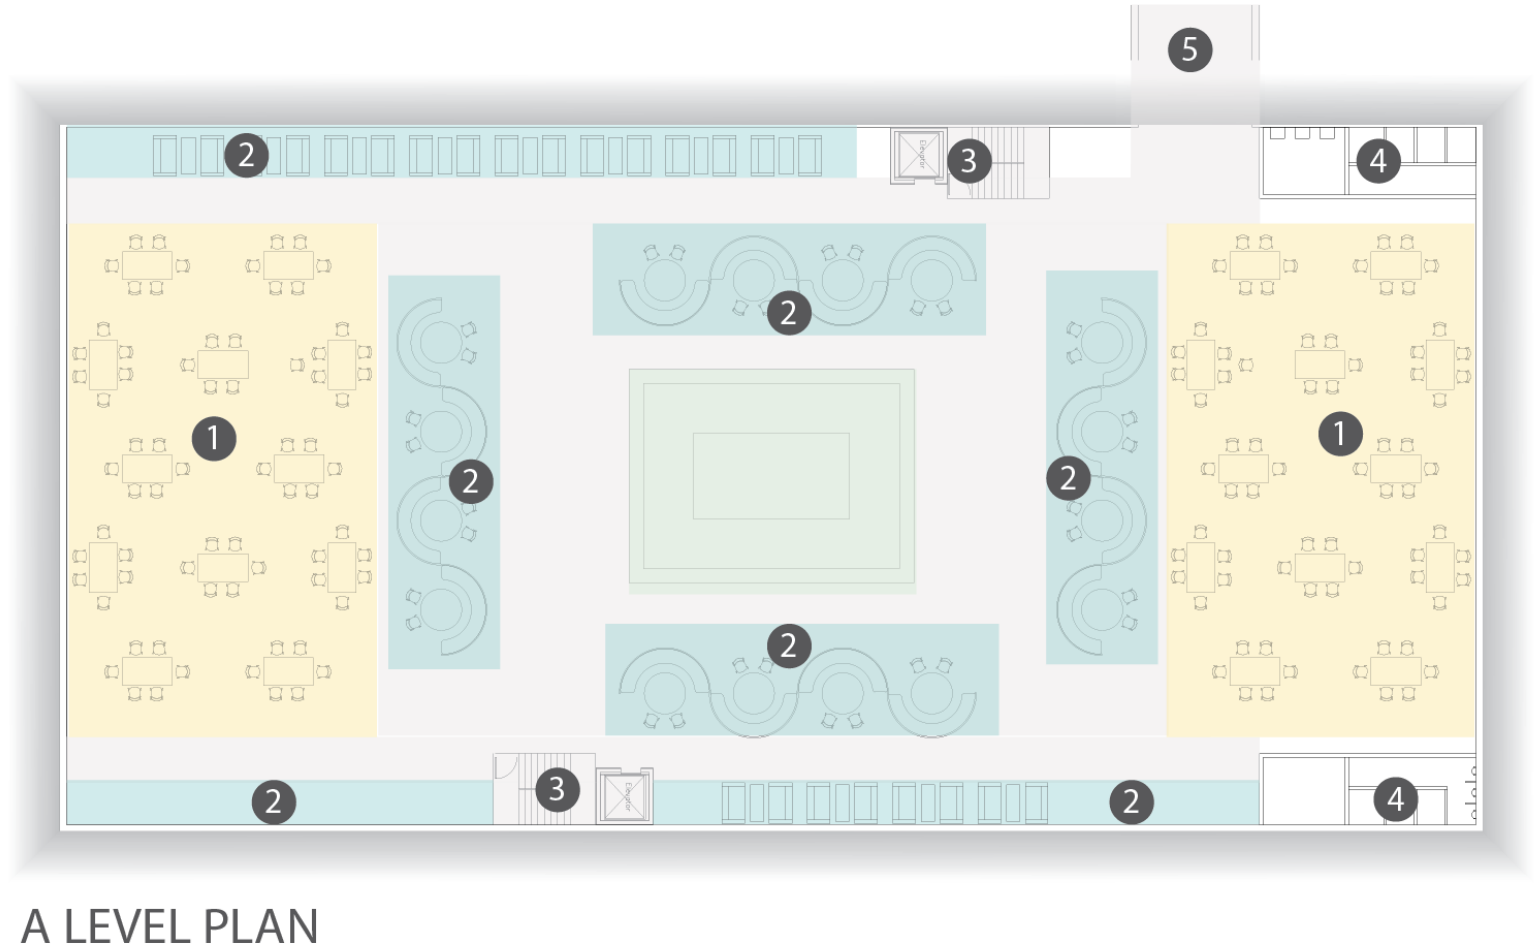

06. The extension of Regenstein library

A LEVEL PLAN

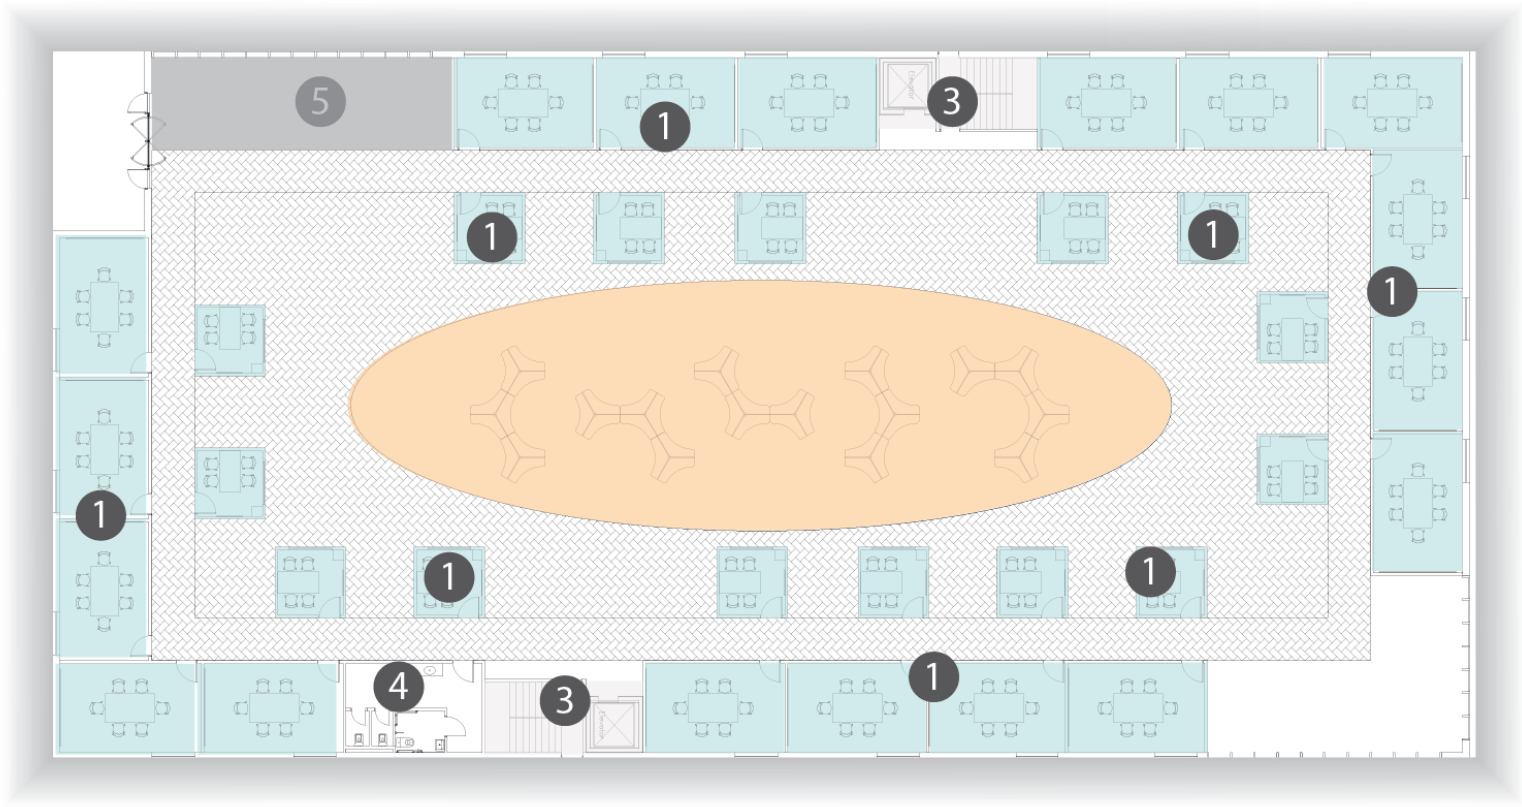

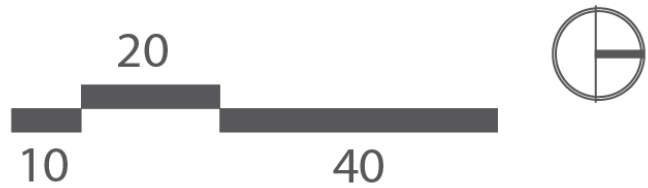

- 1 Informal study zones
- 2 Semi private zones
- 3 Vertical circulation
- 4 Restrooms
- 5 Connection to Regg

A LEVEL PLAN

FIRST FLOOR PLAN

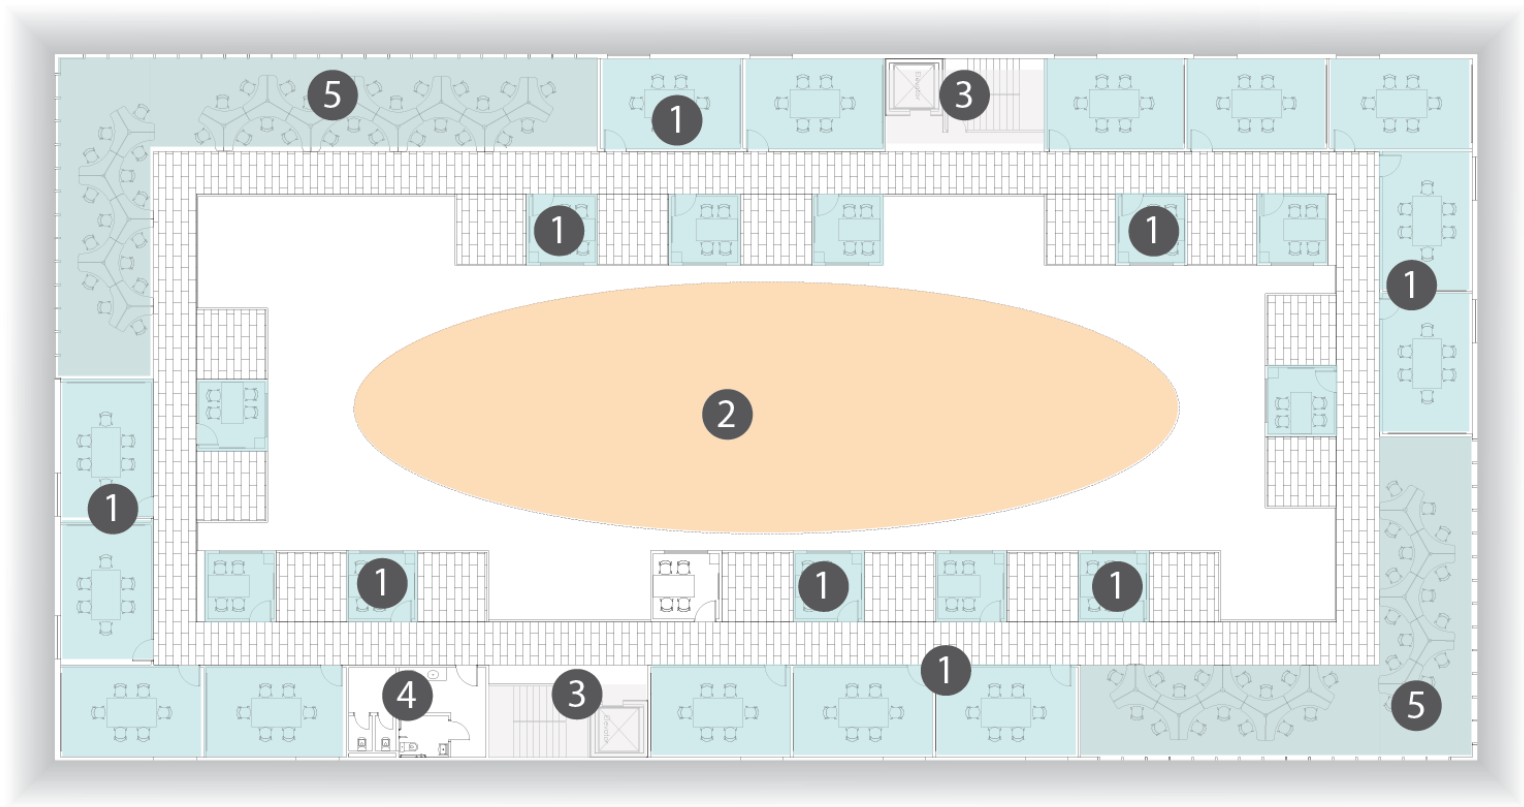

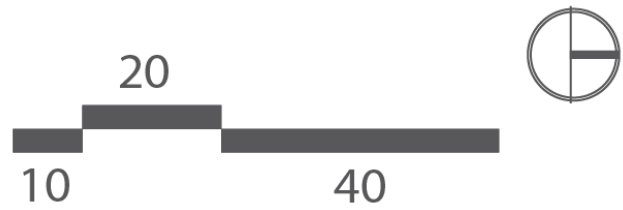

- 1 Study Pods
- 2 Exhibit/Performance Space
- 3 Vertical circulation
- 4 Restrooms
- 5 Reception/Security desk
