The following pages contain an artifact sample for **Goal 2 Critical Reasoning**.

Identifies argument(s)		Articulates argument's conclusion		Provides theoretical support		Assesses logic of argument		Assesses reasonableness of the argument	
Exceeds Expectations (2 points)	Identifies the target argument(s) and clearly distinguishes it from any extraneous elements such as expressions of opinion and descriptions of events.	Exceeds Expectations (2 points)	Carefully articulates the argument's conclusion, clearly distinguishes it from its premises and identifies most relevant definitions and/or hidden assumptions.	Exceeds Expectations (2 points)	Provides support for the argument(s) in light of theories and models discussed in class.	Exceeds Expectations (2 points)	Clearly and correctly assesses whether the argument's premises provide sufficient logical support for the conclusion, independently of whether the premises are true.	Exceeds Expectations (2 points)	Clearly and correctly assesses the reasonableness of the premises, including the credibility of their sources (e.g., observation, testimony, measurement, experiment, etc.), independently of whether the premises support the conclusion. Correctly assesses the reasonableness of the premises, including the credibility of their sources, independently of whether they support the conclusion.
Meets Expectations (1 point)	Identifies the target argument(s).	Meets Expectations (1 point)	Distinguishes the argument's conclusion from its premises and some effort is made to identify relevant definitions and/or hidden assumptions.	Meets Expectations (1 point)	Attempt to support for light of theories and models discussed in class.	Meets Expectations (1 point)	Attempts to assess whether the argument's premises provide sufficient logical support for the conclusion, independently of whether the premises are true.	Meets Expectations (1 point)	Does not consider whether the premises are reasonable to believe, independently of whether they support the conclusion or else no effort is made to evaluate the credibility of the premises' sources.
Does Not Meet Expectations (0 points)	Does not isolate the argument(s) from extraneous elements in the text such as expressions of opinion and descriptions of events.	Does Not Meet Expectations (0 points)	Does not identify the argument's conclusions or distinguish it sufficiently from the premise and little or no effort is made to identify relevant definitions or hidden assumptions.	Does Not Meet Expectations (0 points)	Makes little or no attempt to provide support for light of theories and models discussed in class.	Does Not Meet Expectations (0 points)	Does not address whether the argument's premises provide sufficient logical support for the conclusion, independently of the truth of the conclusion.	Does Not Meet Expectations (0 points)
