Methodology

Assessment Methodology:

First Learning Objective		
Learning Objective Assessed	Demonstrate counseling skills and techniques to become a professional counselor a. Demonstrate foundational counseling skills and techniques in pre-practicum before progressing to practicum (PSYC 557) b. Demonstrate basic counseling skills in practicum before progressing to internship I (PSYC 549) c. Demonstrate advanced counseling skills in internship I & II before graduating (PSYC 578/579)	
Sample size	a. N= 21; b. N= 8 c. N= 11 (4=578; 7=579)	
Semester(s) in which artifacts were collected	Fall 2024; Spring 2025; Summer 2025	
Name of rubric used to evaluate student artifacts	Foundational Skills and Techniques in PSYC 557 Basic Counseling Skills Rubric in PSYC 549 Mid-term and Final evaluation forms (Site supervisor) in PSYC 549, 578, 579	
Artifact source	Course(s) and Instructor(s): PSYC 557: Kelly Kazukauskas PSYC 549: Kelly Kazukauskas/ Clin. Counseling faculty PSYC 578 & 579: Kelly Kazukauskas / Frank Lane Clin. Counseling faculty	Assignment(s): - Video-recorded sessions with mock-clients (PSYC 577); - Audio-recorded sessions/ analysis with clients on field site (PSYC 549); - Faculty Evaluations (PSYC 578/579)
	Other (specify):	

Month/Year of Assessment/Evaluation	Fall 2024; Spring 2025; Summer 2025
Names & Titles of the evaluators	Kelly Kazukauskas, Clinical Coordinator & Course Instructor; Frank Lane, Associate Professor & Course Instructor; Clin. Counseling faculty

Second Learning Objective		
Learning Objective Assessed	Demonstrate ability to apply evidence - based research to their clinical practice.	
Sample size	PSYC 549 (n=8)/PSYC 578 & 579 (n=11)/ PSYC 576 (n=8)	
Semester(s) in which artifacts were collected	Fall 2024; Spring 2025; Summer 2025	
Name of rubric used to evaluate student artifacts	Faculty Evaluation rubric in PSYC 549, 578, 579; Research project proposal in PSYC 576	
Artifact source	Course(s) and Instructor(s): PSYC 576: Pat Corrigan PSYC 549: Kelly Kaz PSYC 578 & 579: Kelly Kaz, Frank Lane	Course(s) and Instructor(s): PSYC 576: Pat Corrigan PSYC 549: Kelly Kaz PSYC 578 & 579: Kelly Kaz, Frank Lane
	Other (specify):	
Month/Year of Assessment/Evaluation	Fall 2024/Spring 2025	
Names & Titles of the evaluators	Instructors: Pat Corrigan, Kelly Kazukauskas, Frank Lane	

Third Learning Objective	
Learning Objective Assessed	Demonstrate knowledge of the knowledge domain areas for rehabilitation and mental health counseling upon graduation - History, philosophy and trends of rehabilitation and mental health counseling; - Professional, ethical and legal considerations that influence the practice of rehabilitation and mental health counseling; - Intake, assessment and evaluation skills; - Diagnosis of mental disorders; - Rehabilitation and mental health counseling theory and evidence-based interventions; - Role and function of clinical rehabilitation and mental health counseling within the context of a variety of clinical practice settings; - Employment trends, career counseling, and job demands in a dynamic 21st century workforce; - Medical and psychological implications of chronic illness and disability including substance abuse, dependence and the potential for coexistence with other disorders; - Case management skills including the utilization of community resources and multidisciplinary team approaches in multiple clinical settings; - Multicultural counseling competencies;

	k. Professional organizations, preparation standards and credentials relevant to the practice of clinical rehabilitation and clinical mental health counseling; l. Crisis, disaster and trauma assessment, intervention and emergency preparedness; m. Research methodology including program evaluation; Critical evaluation of research and the ability to incorporate the evolving fund of knowledge in the professional literature into clinical counseling practice.	
Sample size	N=11 for grade evaluation: N=8 for Exams	
Semester(s) in which artifacts were collected	Fall 2024; Spring 2025; Summer 2025	
Name of rubric used to evaluate student artifacts	Curriculum based Grade Eval.; CRC (Certified Rehabilitation Counselor) exam and/or NCE (National Counselor Examination) Exam	
Artifact source	Course(s) and Instructor(s): All Clinical Counseling courses Clin. Counseling faculty	Course(s) and Instructor(s): All Clin. Counseling courses Clin. Counseling faculty
	Other (specify): The CRC exam is the process under the Commission on Rehabilitation Counselor Certification (CRCC), which is built upon 40 years of empirical research on the competencies and job functions that are vital to the counselor's performance. A passing score on the CRC exam ensures that students meet nationally accepted, key competence standards based on current practice in the field. The National Counselor Examination (NCE) is the most portable examination in counseling. It is one of the examination options for the National Board for Certified Counselor's (NBCC) flagship certification, the National Certified Counselor (NCC), and is required for licensure in most states. Students can choose to take either the CRC or NCE exam upon graduation.	
Month/Year of Assessment/Evaluation	August 2023-August 2024	
Names & Titles of the evaluators	Clin. Counseling faculty; CRCC/NBCC	

Results

Artifact samples

Learning Objective 1 Artifact Sample:

IIT Division of Counseling and Rehabilitation Science				
Basic Counseling Skills Rubric				
Name: [REDACTED]	Date: 10/2/2024	Midterm / Final	Completed By: kak	
Counseling Skills	Exceeds Target (2)	Meets target (1)	Does Not Meet Target (0)	Grade
1. Counseling Relationship	Counselor demonstrates strong ability in establishing counseling relationship. Adept in conveying positive regard, respect, warmth, non-judgmental attitude, empathy, authenticity, and congruence.	Counselor demonstrates an ability to develop and deepen the counseling relationship with the client by displaying positive regard, respect, warmth, non-judgmental attitude, empathy, authenticity, and congruence.	Counselor does not sufficiently develop and deepen the counseling relationship by demonstrating the ability to display positive regard, respect, warmth, non-judgmental attitude, empathy, authenticity, and congruence.	1
Comments: Demonstrates early rapport.				
2. Comprehensive use of skills	Counselor demonstrates a strong ability to effectively and appropriately utilize a wide range of counseling skills.	Counselor demonstrates the use of a range of counseling skills including open-ended questions, summarization, clarification, etc.	Range of skills used was too narrow and/or skills were incorrectly applied.	.5
Comments: Some basic use of questioning and reflection; continue to work on the basic listening sequence and upper skills.				
3. Structure and direction of session	Counselor demonstrates strong ability in creating and maintaining clear structure and productive focus over the course of the interview.	Counselor demonstrates the ability to maintain structure, focus, and direction of the interview, proceeding through defined stages, and is able to end session effectively.	Counselor does not demonstrate the ability to maintain structure, focus, and direction of the interview.	.5
Comments: Continue to work on structuring sessions; noted anxiety (this will get easier).				
4. Accurate Attention to affect, content, and meaning	Counselor demonstrates strong ability in attending to client affect, content, and meaning as demonstrated by accurate and effective reflection, exploration, and summarization.	Counselor adequately explores and reflects client's expression of affect, content or meaning.	Counselor does not actively, accurately, and/or sufficiently explore and reflect client's expression of affect, content or meaning.	1
Comments: Good early skill use.				
5. Professional Role Skills	Counselor demonstrates a sophisticated understanding of professional and ethical behaviors, multicultural competency, responsibilities, relationships and/or demeanor.	Counselor adequately demonstrates an understanding of professional and ethical behaviors, multicultural competency, responsibilities, relationships, and/or demeanor.	Counselor does not demonstrate an understanding of professional and ethical behaviors, multicultural competency, responsibilities, relationships, and/or demeanor.	1
*Requires a grade of 4 or higher to pass				Total Grade for this Student: 4

Learning Objective 2 Artifact Sample:

ILLINOIS TECH | Department of Psychology

DIVISION OF COUNSELING AND REHABILITATION SCIENCE Evaluation of Student Performance by **Faculty Supervisor**

Practicum/Internship

Student Name:	[REDACTED]	
Fieldwork Level:	☐ Practicum	☐ Internship
Specialization:	☒ Clinical Rehabilitation Counseling	☐ Clinical Mental Health Counseling
Evaluation Period:	☐ Midterm Evaluation	☒ Final Evaluation
Faculty Supervisor:	Georgianna Garrels-Rogers	

Please rate the student based on the following scale:

0	1	2	3	4	5
No Basis	Not Acceptable	Below Average	Average	Above Average	Excellent

	0	1	2	3	4	5
Student comes prepared for supervision.						x
Student demonstrates ability to conceptualize cases.					x	
Student demonstrates counseling skills appropriate to level in clinical training.					x	
Student is receptive to constructive feedback and shows ability to implement supervisor input.						x
Student demonstrates professionalism during supervision interactions.						x
Student demonstrates ethical behavior.						x
Student demonstrates effective interpersonal functioning (interpersonal integrity, communication)						x

skills & openness)						
Student demonstrates multicultural awareness and, when appropriate, is able address this in counseling & supervision.					x	
Potential for growth as a clinical counselor, in your opinion.					x	
Potential for growth in area of specialization (please indicate): ☒ Clin. Rehab Couns. ☐ Clin. MH Couns.					x	
Comments:	Throughout her practicum, Ms. Maryem consistently demonstrates openness for growth, feedback, multicultural awareness, and personal insight. She continues to expand upon developing her vocational/clinical skills, incorporating a person-centered, authentic, and empathic approach resulting in fostering a strong rapport with the clients. She readily incorporated suggestions as it pertains to theory and practical applications as well as the refinement to her counseling approach. Her genuine interest in others' well-being, combined with strong communication skills and ethical awareness, would contribute to her excelling in rehabilitation counseling.					

Additional Evaluation by Faculty Group Supervisor:

	0	1	2	3	4	5
Student comes prepared for group supervision.					X	
Student demonstrates ability to conceptualize cases.					X	
Student participates in group discussions during group supervision.					X	
Student provides relevant & appropriate feedback to classmates during group supervision.					X	
Potential for growth as a clinical counselor, in your opinion.					X	
Potential for growth in area of specialization (please indicate): ☒ Clin. Rehab Couns. ☐ Clin. MH Couns.					X	
Comments: Romana comes prepared to group supervision and is helpful to her peers. Demonstrates ability to conceptualize cases and has insight related to client needs.

Description of findings

Clinical Counseling faculty conducted their annual student evaluation and reviewed program evaluation data on June 2, 2025 at the Division of Counseling and Rehabilitation Science (DCRS) Summer Retreat. In addition to this, DCRP faculty participate in biweekly program meetings to address and exchange feedback on student progress in the program. In this way, student academic performance can be addressed immediately, during division meetings and with instructors and/or academic advisors (as appropriate). Student performance in key areas including clinical counseling skills (Learning objective #1), ability to apply evidence-based research to practice (Learning objective #2), and clinical counseling (rehabilitation/mental health counseling) knowledge domains areas (Learning objective #3). This information is also reviewed annually at the fall DCRS Advisory Board Meeting (10/10/2025).

Learning Objective #1: This learning objective was assessed using several tools, reflecting our students' progressive development of clinical counseling skills over time. These include the Foundational Skills and Techniques Analysis (standard 1.a.), the Basic Counseling Skills rubric (standard 1.b.), and midterm/final evaluations conducted by site supervisors while students are participating in their field-based clinical counseling experiences (standard 1.c.). Overall, Learning Objective #1 was found to be met, as all three artifacts exceeded the set standard of 90% (100%, 100%, and 92% respectively). This includes foundational skills and techniques, basic counseling skills, and advanced counseling skills, which indicates that students meet or exceed in their skill development over their progression through the program.

Learning Objective #2: Evidence-based research-to-practice (EBP) is evaluated in two distinct ways: Through Faculty Supervisor Evaluations in PSYC 549, 578 and 579, and through successful development

of a research project proposal in PSYC 576, which is our final research course. Overall, Learning Objective #2 was found to be met, as evidenced by both indicators exceeding the set standard of 90% (100% and 100% respectively). This indicates that students consistently demonstrate the ability to connect empirical research to their clinical practice, which is an important standard in the clinical counseling profession.

Learning Objective #3: The Clinical Counseling program is accredited by the Council on the Accreditation of Counseling and Related Programs (CACREP), which mandates strict standards on related to program curriculum, as well as demonstration of a minimum level of competency in both knowledge and skill domains of clinical rehabilitation counseling and clinical mental health counseling. Each course is designed to address key performance indicators in specified areas through lectures, assignments, exams, and competency modules. Based on the data as collected in artifacts 3.a. and 3.b., Learning Objective #3 was found to be met. One-hundred percent (N=8) of students maintained an average of a B or better across core-curriculum courses, which include the required CACREP KPI indicators. During the 2023-2024 academic year, 100% (N=6/6) of students who could be verified to have taken their licensing examination passed the examination, which not only exceeds the 80% indicator threshold, it also shows an improvement from last year (86%). Additionally, this also significantly exceeds the national passing rate, which is 70%. Two additional graduates could not be verified as to whether or not they took a licensing examination, which may also be related to international student status, as U.S. licensing examinations would not be relevant/needed when returning to their home country.

The DCRS faculty and the advisory board are in agreement that the program objectives are being well met and students are progressing at an above-average rate in relation to clinical counseling skill development, evidence-based practice understanding and interventions, and demonstrating the skills necessary to move successfully into the field of clinical rehabilitation and clinical mental health counseling. Because we meet regularly to discuss student issues and concerns, any discrepancies are quickly addressed, in order to assist students in staying on track/achieving success. No issues or concerns were raised.

Continuous Improvement, CI, plans

Both specializations within the Clinical Counseling program (Clinical Rehabilitation Counseling and Clinical Mental Health Counseling) are fully accredited by CACREP through October 31, 2032. This is indicative of program compliance at the highest level in the field. We continue to evaluate students by specialization track within this program (as was suggested in CI last year). Licensing exam pass rates increased significantly; no improvement needed at this time. There was also a continued success in student achievement related to the Key Performance Indicator (KPI) core areas, as assessed in the graduating class for 2025. Therefore, there is no plan in the coming academic year to change the standards as they are specifically tied to the CACREP Accreditation Standards we are required to follow for our program. We will continue to monitor and analyze the data by track specialization for Clinical Rehabilitation Counseling and Clinical Mental Health Counseling.

This cycle's CI plan

Describe any CI plans developed from this cycle's data, as well as the strategy developed to implement these plans.

☒ After consideration and presentation to the program authority, no CI plans are recommended.

Summer Planning Retreat Agenda

June 2, 2025 10:00 – 2:00 p.m.

The Center's Conference Room

- 1) Student Issues
 - Faculty discussed RM & CH (internship status), and funding needs for incoming students
 - Concerns re: number of incoming students due to visa issues
- 2) Comps Questions & Procedure Changes
 - Discussed possibility of returning to in-person written comps, or ways that may be more accommodating to student needs (example, students with small children). Desire to continue with consistency for all students, as well as a focus on how to manage AI changes (ex. chatGPT).
- 3) Clinical Fieldwork Discussion
 - a) Site Establishment
 - Concerns raised regarding how students communicate acceptance of sites, as several student have back out at the last minute leaving sites hanging. New rules regarding this, especially as it relates to professional dispositions.
 - b) Practicum – hours/direct client hours
 - Discussion raised about lowering the number of required direct client hours from 60 to 40 (which is the CACREP minimum). The majority of faculty were against this; it will remain at 60.
 - c) Digital Management of Clinical Fieldwork Paperwork
 - Discussed need for movement to digital file-keeping and standardized signatures on ppw.
- 4) Programmatic Changes
 - a) MS: Elective Option
 - Began discussion on changes to MS tracks to include more coursework on MFT and working with children. Concerns re: going to an elective process, due to the need to make load (minimum of 10 students per class), which is the university requirement. Discussed reduction or rehab-centric courses (combining RET and Med Aspects) to add in a new MFT course. Possible reduction of research classes from 2 to 1 as well.
 - b) PhD: Generalizing the Program
 - Began discussion of steps to move the RCE program to a general Counselor Education program, in order to increase recruitment opportunity. Will look into requirements per CACREP.

- 5) Incoming Class and Fall Orientation (August 15, 2025 from 10 am – 12 pm, Psychology Classroom)
- 6) Program Evaluation – 2024-2025 (SEE PAGE 2-3)
 - Reviewed PE data for the past year and discussed need for artifact data. Faculty began adding in their data and reviewing status.
- 7) Student Evaluation
 - a) Doctoral Students
 - Completed review of doctoral students – no issues/concerns
 - b) M.S. Students
 - Completed review of MS students – areas of concern (CH) passed to advisors
